

## UltraScoop II

Our heavy duty 12 gauge UltraScoop II is perfect for larger toolholders with long tools in them. Flat shelves are safer and sturdier for transporting and storing.

- Sturdy mig welded frame
- Eleven shelf mounting positions
- Outrigger design adds stability
- Molded inserts protect tool tapers
- Side shelf for dispenser or tool vise
- Closed sides protect tools
- Tubular handle for ergonomic comfort
- Heavy duty casters are chip resistant

EDP #99750

EDP#	Description	Capacity

99780	HSK 100A toolholders	60
99725	HSK 125A toolholders	48

## Master Dispenser Stands

Master Dispenser Stands are more ergonomic. Instead of taking up valuable space on that bench top, this stand allows you to put your cutting tools next to the bench, not on it.

- Cold rolled steel construction
- Ergonomic position reduces bending
- Our Master Dispensers fit easily and securely in the top
- Black texture powder coat finish
- Available in 12" or 26" heights
- Adjustable feet allow for leveling
- Assembles in minutes
- A safe and efficient addition to any shop
